SUMMARY

I am a Full-Stack Developer with **over 2 years of experience**, skilled in Angular, React, and Node.js (Express.js, NestJS). I have worked on projects involving ERP systems, payment integrations, multi-role architectures, and SIMA token-based authentication with document signing. I am passionate about hackathons and programming competitions, and I was a finalist in WorldSkills (Web programming category), ranking 5th out of 130 participants. I enjoy learning new technologies and contributing to innovative projects. I am highly motivated to solve complex problems and deliver efficient, user-friendly solutions. I thrive in collaborative environments where I can share knowledge and continuously grow as a developer.

SKILLS

Technical Skills

Frontend: HTML, CSS, Sass/Scss, Bootstrap, Tailwind CSS, JavaScript, TypeScript, React, NextJs, Angular, Redux

Backend: NodeJs, ExpressJs, NestJs, TypeOrm, Mongoose, Prisma, Sequelize, Redis, Socket.io

Tools: Git & GitHub, Visual Studio Code, Figma, Postman, Npm, Trello

Soft Skills

Communication: Active listening, written and verbal correspondence, negotiation

Problem Solving & Analytical Thinking: Analytical thinking, critical thinking, solving complex problems

Teamwork: Team collaboration, knowledge sharing, responsible approach to work

Personal Development: Adaptability, time management, stress management, continuous learning

EDUCATION

Baku Engineering University

Bachelor of Science in Computer Science (2022 - 2026)

Matrix Academy

Frontend Programming (Oct 2023 – Apr 2024)

Div Academy

Backend Programming (Nov 2024 – Mar 2025)

EXPERIENCE

Uniser GROUP MMC – Baku, Azerbaijan

December 2024 – Present

Middle Frontend Developer

June 2026 – Present

- Developed and maintained enterprise ERP systems
- Designed scalable and reusable UI components for large-scale applications
- Integrated electronic signature (SIMA) and payment systems
- Built multilingual applications with dynamic language switching
- Developed administrative and analytical dashboards
- Optimized application performance through RESTful API integration
- Collaborated with backend developers, QA engineers, and business analysts
- Provided technical support and maintained existing enterprise applications

Junior Frontend Developer

December 2024 – June 2026

- Developed responsive web applications
- Implemented UI components based on Figma designs
- Consumed REST APIs and integrated frontend with backend services
- Fixed bugs and improved application usability and performance
- Worked with Git for version control and team collaboration
- Optimized application performance through RESTful API integration
- Collaborated with backend developers, QA engineers, and business analysts
- Provided technical support and maintained existing enterprise applications

Smart Business LLC – Baku, Azerbaijan

Junior Frontend Developer

March 2024 – August 2024

- Developed POS and warehouse management systems
- Designed and implemented responsive user interfaces for desktop and mobile devices
- Built administrative and analytical dashboards for business operations
- Integrated frontend applications with RESTful APIs and optimized data handling
- Collaborated with backend developers to implement new features and resolve issues
- Participated in the full software development lifecycle, including analysis, development, testing, and maintenance
- Maintained clean, reusable, and scalable code following best practices
- Worked with Git for version control and team collaboration
